**PLAYING IN NATURE HELPS
KIDS TO BE HAPPY, HEALTHY,
AND READY TO LEARN!**

We are going on an adventure to Bellemeade Park this summer!

Children will explore the Wonder Garden, the Nature Funscape, and the Discovery Forest! Playing in nature is known to support brain development and critical social skills - - such as cooperating and problem solving. This field trip gives kids a chance to explore the joys of exploring and playing in nature!!

Please have your child wear closed-toe shoes and sun protection.
